Student name: _____ **Date:** _____ **Patient age:** _____

List all medications administered by student:

Physical Assessment		
Level of consciousness: A V P U Agitated Obtunded Confused Uncooperative		
Airway patent: Yes No Respirations: Normal Labored Hypo Hyper Absent		
Circulation: Pulse found at: Radius Carotid Strong Weak Absent		
Pupils: Equal Unequal Reactive Fixed Dilated Pinpoint		
Description of breath sounds:		
Patient's chief complaint:		
Skin signs: Temp: Normal Cold Hot Moisture: Dry Moist Color: Pink Pale Cyanotic		
Edema? Yes No Describe:		
Contractions? Yes No Onset: Duration: Minutes apart:		
Spontaneous? Yes No Trauma induced? Yes No Describe:		
Description of pain:		
Para: Gravida: Gestational week:		
Due date: Single Twins Triplets Other		
Prenatal care? Yes No Fertility drugs? Yes No		
Past OB problems? Anemia Bleeding Breech Ectopic C-section Diabetes HPTN Multiple births Preeclampsia Other:		
Last oral intake: Food/fluid Amount?		
History of drug/alcohol abuse? Yes No		
Did you witness childbirth? Yes No		
APGAR Score	One minute	Five minutes
• Appearance		
• Pulse Rate		
• Grimace		
• Activity		
• Respiratory effort		
Briefly review the pathophysiology of the patient's problem:		
Briefly review potential sequelae of patient's problem and/or treatment received:
