IMPORTANT TRANSFER INFORMATION

This agreement is between the Community Colleges of Colorado and the Colleges of Engineering at Colorado School of Mines, Colorado State University, Colorado State University-Pueblo, University of Colorado at Boulder, University of Colorado at Colorado Springs and the University of Colorado at Denver.

Under this engineering articulation agreement, general education requirements are specifically selected to comply with lower division course sequences that are prerequisites to the College of Engineering graduation requirements.

The receiving college or university will accept all approved credits earned within ten years of transfer, provided that course content has not changed substantially within that time period. Courses earned more than ten years earlier may be evaluated on a case-by-case basis.

Additional transfer credits in the engineering major, supporting courses, and electives will be handled on a case-by-case basis in accordance with the transfer policies in force at each institution.

ASSESSMENT REQUIREMENTS

Basic Skills courses may be required based on assessment scores. It is the student's responsibility to take these course requirements within the first 30 credits at CCA. Basic Skills courses are also available at other area community colleges. Each course is 3 credits except where indicated.
