

1. The AAS degree provides career skills to enable students to enter the job market after graduation, retrain in a new career, or upgrade employment skills. Occupational courses are designed to meet these needs instead of transferring to four-year institutions; however, many four-year institutions accept some of these courses. Check with your college of transfer intent for more info.
2. Certificate programs offered in the occupational area are generally shorter in length. Students may wish to complete a Certificate first, and apply those same courses to the requirements for the AAS degree.
3. You must apply for graduation on the website or at Enrollment Services prior to your final semester.

The accounting program is designed for students whose objectives are to obtain a technical degree and/or certificate. Graduates find employment in many areas of business and government.

English – 3 credits

ENG 121 English Composition I

Mathematics or Science – Choose 3 credits from the following:
