

1. The AAS degree provides career skills to enable students to enter the job market after graduation, retrain in a new career, or upgrade employment skills. Occupational courses are designed to meet these needs instead of transferring to four-year institutions; however, many four-year institutions accept some of these courses. Check with your college of transfer intent for more info.
2. Certificate programs offered in the occupational area are generally shorter in length. Students may wish to complete a Certificate first, and apply those same courses to the requirements for the AAS degree.
3. You must apply for graduation on the website or at Enrollment Services prior to your final semester.

Program Info:

The Film/Video Technology and Certificate programs are designed for students seeking professional preparation for careers in Film, Video, and related industries. Students will be prepared for employment in the television, industrial video, network, cable, and internet production, commercial production, educational video, and feature film production industries, or for entry into graduate study programs. For more info on the film program, visit <http://www.coloradofilmschool.net>.
