Report from Project SLOPE presentation at Expanded Leadership meeting on 4/23/18

- Received really positive feedback, especially about the student engagement with focus group data.

Phase 1 Next Steps

- Request for each committee to create a summary report of the work they have completed thus far. This report should include:
 - Recommendations on how their committee should move forward during phase 2.
 - An update on all of the tasks assigned originally.
 - A list of everyone who participated in the committee's work.
 - Stakeholder committees should include the number of stakeholders who participated and the categories they fall into.
- Submit these reports by the May meeting. Tricia will compile the information in these reports to share as an update for the HLC Assessment Academy.

Phase 2

- Considering expanding the current Academic Affairs Assessment Committee to include college-wide representation and use this as the foundation for phase 2. The goal of this group will be to work towards standardizing various assessment reports, forms, and processes that can then be used across divisions.

General Updates

- The HLC Focus Visit is scheduled for February 18-19, 2019. Our report to the HLC preceding this visit will have to be submitted by December 21, 2018.
- Request from the Communications Committee for people to send any deliverables that they would like on the assessment webpage to the assessment email address.
