CCA - Why Choose CCA

3

4

5 >>: On my first day on campus, I was nervous, but I actually had
6 had a lot of fun. It wasn't so much nervous I was terrified, it was
7 nervous that I was excited about it.

8 >>: It was quite convenient, not only as far as location, but as
9 far as classroom times, opportunities, there's a lot of options to be
10 able to get the classes that you need.

11 >>: You get to experience kind of that college feeling. You get
12 to walk around and people smile at you. They don't even know who you
13 are. And you can 5 years, 10 years, 20 years younger than them, and
14 they all smile at you. It's a very friendly campus.

15 >>: And being a single working mom myself, that was very
16 important to me and actually vital in my academic career. So CCA was
17 a great fit in that way because I didn't end up encountering any
18 problems with my schedule conflicting because of all the options they
19 offered here.

20 >>: I came from Cameroon. Cameroon is in West Africa. We speak
21 French and English.

22 >>: When I first came here, my family was struggling with bills
23 and medical. And my dad had just got out of the Marine Corps, and so
24 he was looking for a job, and so financial need was something that was
25 at the top of my priorities whenever I was looking for a college.

>>: What I like about it is the small classes. It's like family-size classes where you can talk, and your teacher hear you closely, and you can talk with your friends. And then you actually sit with your teacher as if you are in a family meeting.

>>: It not only offers a low cost tuition, but it also offers the same rigor that any other university would have, whether it's 4-year or 2-year. There's so many great things about CCA that they offer at a low cost that it's hard to believe that anybody else is going anywhere else.

>>: The other thing that I've seen is faculty and staff really, really care. Their passion, not just for what they teach, but for your success.

>>: I have achieved what I could and gone far beyond the boundaries of what I thought was possible because of this school, the administration, the students haven't put restrictions on me.

>>: You can genuinely feel like they care about what grade you get. They genuinely feel and they genuinely push you in the right direction.

>>: I picked CCA because not only is it a great school, you have great people. It's a diverse community. You have so much help in the process that it makes the college experience so easy for you.

>>: Come to CCA. It will be a greet experience. You'll never forget it.

>>: I've known a lot of people, I've seen my friends, older siblings graduate from here. I've seen many older -- my parents'

older friends graduating from here. It's a great place. As long as you want to, you can do it.
